INTRODUCTION

1. INTRODUCTION

Kenya Railways (KR) is a State Corporation established in 1978 under the Kenya Railways Act (Cap 397) of the Laws of Kenya. The overall mandate of the Corporation then was to provide a coordinated and integrated system of rail and inland waterways transport services and inland port facilities within Kenya. The Act was amended through The Kenya Railways (Amendment) Act 2005 to make it possible for the Board of Directors to enter into concession agreements or other forms of management for the provision of rail transport services. Following this Amendment, KR conceded railway operations to Rift Valley Railways Ltd (K) from November 1, 2006 for 25 years for freight services and 1 year for passenger services. At the time, Kenya Railways was mandated to promote, facilitate and participate in the National and Metropolitan Railway development through:

- ❖ Developing a Standard Gauge Railway network within the country and connected to neighbouring countries
- ❖ Developing rail commuter services within and around major towns in Kenya (Nairobi, Mombasa, Nakuru, Eldoret and Kisumu)

The Corporation has since undergone numerous developments, with the 2006 Concession agreement signed with the Rift Valley Railways (Kenya) being terminated in July, 2017. Subsequently, the Corporation has taken back the role of management of the concession and operations of the Commuter Rail, in addition to that of management of non-conceded assets.

Another development is the Corporation's recent completion of the implementation of the first phase of the country's mega-flagship project, the Standard Gauge Railway (SGR), with operations of the Madaraka Express on course.

Further to this, the Corporation recently revised its Strategic Plan, now guided by the SP of 2017-2022, with our new Vision "*To be a provider of world class rail services*" and our new Mission "*To develop an integrated rail network and provide efficient and safe rail services*". With this, KR serves as a blueprint that will catapult the sector towards world-class railway infrastructure, operations and services, making KR a pace setter and reference point on railway matters in the region.

In pursuit of our new strategic vision, the purpose of KR is:

- To develop new railways projects and rehabilitate existing infrastructure and facilities through proper planning and effective project implementation.
- To ensure that efficiency is a hallmark of our operations. We ensure that available resources are deployed in providing freight and passenger services to our customers. Railway undertakings are carried out in a safe and sustainable manner for the sake of our environmental conservation, financial wellbeing of the Corporation and our customers for the overall economic prosperity of our country in the long term.

The above can only be realized by applying the core values of business currently employed at the state Corporation. These are:

- **Integrity:** We are guided by probity and highest business ethics in carrying out our business.
- **Accountability:** we are committed to being accountable and responsible to our customers and stakeholders.
- **Reliability:** We strive to be reliable, dependable and consistent in delivering world class rail services. We will deliver services within the specified time and standard to the satisfaction of our customers.
- **Safety:** We promise to pay special attention to detail in the safety and security requirements of our customers, workers and the community. We guarantee that fidelity to safety and security will underpin all our activities and operations.
- **Collaboration:** We will work jointly with stakeholders to ensure efficient service delivery and provide effective solutions to customers. We are committed to team work in pursuit of our common vision for the railways industry.
