TABLE OF CONTENTS

INTRODUCTION

Kenya Railways (KR) is a State Corporation established in 1978 under the Kenya Railways Act (Cap 397) of the Laws of Kenya. The overall mandate of the Corporation then was to provide a coordinated and integrated system of rail and inland waterways transport services and inland port facilities within Kenya. The Act was amended through The Kenya Railways (Amendment) Act 2005 to make it possible for the Board of Directors to enter into concession agreements or other forms of management for the provision of rail transport services. Following this Amendment, KR conceded railway operations to Rift Valley Railways Ltd (K) from November 1, 2006 for 25 years for freight services and 1 year for passenger services. At the time, Kenya Railways was mandated to promote, facilitate and participate in the National and Metropolitan Railway development through:

- ❖ Developing a Standard Gauge Railway network within the country and connected to neighbouring countries
- ❖ Developing rail commuter services within and around major towns in Kenya (Nairobi, Mombasa, Nakuru, Eldoret and Kisumu)

The Corporation has since undergone numerous developments, with the 2006 Concession agreement signed with the Rift Valley Railways (Kenya) being terminated in July, 2017. Subsequently, the Corporation has taken back the role of management of the concession and operations of the Commuter Rail, in addition to that of management of non-conceded assets.

Another development is the Corporation's recent completion of the implementation of the first phase of the country's mega-flagship project, the Standard Gauge Railway (SGR), with operations of the Madaraka Express on course.

Further to this, the Corporation recently revised its Strategic Plan, now guided by the SP of 2017-2022, with our new Vision "*To be a provider of world class rail services*" and our new Mission "*To develop an integrated rail network and provide efficient and safe rail services*". With this, KR serves as a blueprint that will catapult the sector towards world-class railway infrastructure, operations and services, making KR a pace setter and reference point on railway matters in the region.

In pursuit of our new strategic vision, the purpose of KR is:

- To develop new railways projects and rehabilitate existing infrastructure and facilities through proper planning and effective project implementation.
- To ensure that efficiency is a hallmark of our operations. We ensure that available resources are deployed in providing freight and passenger services to our customers. Railway undertakings are carried out in a safe and sustainable manner for the sake of our environmental conservation, financial wellbeing of the Corporation and our customers for the overall economic prosperity of our country in the long term.

The above can only be realized by applying the core values of business currently employed at the state Corporation. These are:

- **Integrity:** We are guided by probity and highest business ethics in carrying out our business.
- **Accountability:** we are committed to being accountable and responsible to our customers and stakeholders.
- **Reliability:** We strive to be reliable, dependable and consistent in delivering world class rail services. We will deliver services within the specified time and standard to the satisfaction of our customers.
- **Safety:** We promise to pay special attention to detail in the safety and security requirements of our customers, workers and the community. We guarantee that fidelity to safety and security will underpin all our activities and operations.
- **Collaboration:** We will work jointly with stakeholders to ensure efficient service delivery and provide effective solutions to customers. We are committed to team work in pursuit of our common vision for the railways industry.

2.13.1 Tenders shall remain valid for 60 days or as specified in the invitation to tender after date of tender opening prescribed by the Procuring entity, pursuant to paragraph 2.18. A tender valid for a shorter period shall be rejected by the Procuring entity as nonresponsive.

2.13.2 In exceptional circumstances, the Procuring entity may solicit the Tenderer's consent to an extension of the period of validity. The request and the responses thereto shall be made in writing. The tender security provided under paragraph 2.12 shall also be suitably extended. A tenderer may refuse the request without forfeiting its tender security. A tenderer granting the request will not be required nor permitted to modify its tender.

2.14 Format and Signing of Tender

2.14.1 The tenderer shall prepare two copies of the tender, clearly / marking each "ORIGINAL TENDER" and "COPY OF TENDER," as appropriate. In the event of any discrepancy between them, the original shall govern.

2.14.2 The original and all copies of the tender shall be typed or written in indelible ink and shall be signed by the tenderer or a person or persons duly authorized to bind the tenderer to the contract. All pages of the tender, except for unamended printed literature, shall be initialed by the person or persons signing the tender.

2.14.3 The tender shall have no interlineations, erasures, or overwriting except as necessary to correct errors made by the tenderer, in which case such corrections shall be initialed by the person or persons signing the tender.

2.15 Sealing and Marking of Tenders

2.15.1 The tenderer shall seal the original and each copy of the tender in separate envelopes, duly marking the envelopes as "ORIGINAL" and "COPY." The envelopes shall then be sealed in an outer envelope. The inner and outer envelopes shall:

(a) be addressed to the Procuring entity at the address given in the invitation to tender

(b) Bear tender number and name in the invitation to tender and the words: **“DO NOT OPEN BEFORE Thursday July 18, 2019 at 10.00 am.”**

2.15.3 The inner envelopes shall also indicate the name and address of the tenderer to enable the tender to be returned unopened in case it is declared “late”. —

2.15.4 If the outer envelope is not sealed and marked as required by paragraph 2.15.2, the Procuring entity will assume no responsibility for the tender’s misplacement or premature opening.

2.16 **Deadline for Submission of Tenders**

(a) 2.16.1 Tenders must be received by the Procuring entity at the address specified under paragraph 2.15.2 no later than **Thursday July 18, 2019 at 10.00 am.**

2.16.2 The procuring entity may, at its discretion, extend this deadline for the submission of tenders by amending the tender documents in accordance with paragraph 6, in which case all rights and obligations of the procuring entity and candidates previously subject to the deadline will thereafter be subject to the deadline as extended.

2.16.3 Bulky tenders which will not fit in the tender box shall be received by the procuring entity as provided for in the appendix.

2.17 **Modification and withdrawal of tenders**

2.17.1 The tenderer may modify or withdraw its tender after the tender’s submission, provided that written notice of the modification , including substitution or withdrawal of the tender’s is received by the procuring entity prior to the deadline prescribed for the submission of tenders.

2.17.2 The Tenderer’s modification or withdrawal notice shall be prepared, sealed, marked, and dispatched in accordance with the provisions of paragraph 2.15. A withdrawal notice may also be

sent by cable, but followed by a signed confirmation copy, postmarked not later than the deadline for submission of tenders.

2.17.3 No tender may be modified after the deadline for submission of tenders.

2.17.4 No tender may be withdrawn in the interval between the deadline for submission of tenders and the expiration of the period of tender validity specified by the tenderer on the Tender Form. Withdrawal of a tender during this interval may result in the Tenderer's forfeiture of its tender security, pursuant to paragraph 2.12.7.

2.17.5 The procuring entity may at any time terminate procurement proceedings before contract award and shall not be liable to any person for the termination.

2.17.6 The procuring entity shall give prompt notice of the termination to the tenderers and on request give its reasons for termination within 14 days of receiving the request from any tenderer.

2.18 **Opening of Tenders**

2.18.1 The Procuring entity will open all tenders in the presence of tenderers' representatives who choose to attend, on **Thursday July 18, 2019 at 10.00 am.**, and in the location specified in the invitation to tender. The tenderers' representatives who are present shall sign a register evidencing their attendance.

2.18.3 The tenderers' names, tender modifications or withdrawals, tender prices, discounts, and the presence or absence of requisite tender security and such other details as the Procuring Entity, at its discretion, may consider appropriate, will be announced at the opening.

2.18.4 The procuring entity will prepare minutes of the tender opening which will be submitted to the tenderers that signed the tender opening register and will have made the request.

2.19 **Clarification of tenders**

2.19.1 To assist in the examination, evaluation and comparison of tenders the procuring entity may at its discretion, ask the tenderer for a clarification of its tender. The request for clarification and the

response shall be in writing, and no change in the prices or substance shall be sought, offered, or permitted.

2.19.2 Any effort by the tenderer to influence the procuring entity in the procuring entity's tender evaluation, tender comparison or contract award decisions may result in the rejection of the tenderers tender.

2.19.3 Comparison or contract award decisions may result in the rejection of the tenderers' tender.

2.20 Preliminary Examination and Responsiveness

2.20.1 The Procuring entity will examine the tenders to determine whether they are complete, whether any computational errors have been made, whether required securities have been furnished whether the documents have been properly signed, and whether the tenders are generally in order.

2.20.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the candidate does not accept the correction of the errors, its tender will be rejected, and its tender security may be forfeited. If there is a discrepancy between words and figures, the amount in words will prevail.

2.20.3 The Procuring entity may waive any minor informality or nonconformity or irregularity in a tender which does not constitute a material deviation, provided such waiver does not prejudice or affect the relative ranking of any tenderer.

2.20.4 Prior to the detailed evaluation, pursuant to paragraph 23, the Procuring entity will determine the substantial responsiveness of each tender to the tender documents. For purposes of these paragraphs, a substantially responsive tender is one which conforms to all the terms and conditions of the tender documents without material deviations. The Procuring entity's determination of a tender's responsiveness is to be based on the contents of the tender itself without recourse to extrinsic evidence.

2.20.5 If a tender is not substantially responsive, it will be rejected by the Procuring entity and may not subsequently be made responsive by the tenderer by correction of the nonconformity.

2.21 Conversion to a single currency

2.21.1 Where other currencies are used, the procuring entity will convert those currencies to Kenya shillings using the selling exchange rate on the date of tender closing provided by the central bank of Kenya.

2.22 Evaluation and comparison of tenders.

2.22.1 The procuring entity will evaluate and compare the tenders which have been determined to be substantially responsive, pursuant to paragraph 2.20

2.22.2 The comparison shall be of the price including all costs as well as duties and taxes payable on all the materials to be used in the provision of the services.

2.22.3 The Procuring entity's evaluation of a tender will take into account, in addition to the tender price, the following factors, in the manner and to the extent indicated in paragraph 2.22.4 and in the technical specifications:

(a) operational plan proposed in the tender;

(b) deviations in payment schedule from that specified in the Special Conditions of Contract;

2.22.4 Pursuant to paragraph 22.3 the following evaluation methods will be applied:

(a) ***Operational Plan.***

The Procuring entity requires that the services under the Invitation for Tenders shall be performed at the time specified in the Schedule of Requirements. Tenders offering to perform longer

than the procuring entity's required delivery time will be treated as non-responsive and rejected.

(b) *Deviation in payment schedule.*

Tenderers shall state their tender price for the payment on a schedule outlined in the special conditions of contract. Tenders will be evaluated on the basis of this base price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in tender price they wish to offer for such alternative payment schedule. The Procuring entity may consider the alternative payment schedule offered by the selected tenderer.

2.22.5 The tender evaluation committee shall evaluate the tender within 30 days from the date of opening the tender.

2.22.6 To qualify for contract awards, the tenderer shall have the following:-

- (a) Necessary qualifications, capability experience, services, equipment and facilities to provide what is being procured.
- (b) Legal capacity to enter into a contract for procurement
- (c) Shall not be insolvent, in receivership, bankrupt or in the process of being wound up and is not the subject of legal proceedings relating to the foregoing
- (d) Shall not be debarred from participating in public procurement.

2.23. Contacting the procuring entity

2.23.1 Subject to paragraph 2.19, no tenderer shall contact the procuring entity on any matter relating to its tender, from the time of the tender opening to the time the contract is awarded.

2.23.2 Any effort by a tenderer to influence the procuring entity in its decisions on tender evaluation tender comparison or contract award may result in the rejection of the tenderers tender.

2.24 Award of Contract

(a) Post qualification

- 2.24.1 In the absence of pre-qualification, the Procuring entity will determine to its satisfaction whether the tenderer that is selected as having submitted the lowest evaluated responsive tender is qualified to perform the contract satisfactorily.
- 2.24.2 The determination will take into account the tenderer's financial and technical capabilities. It will be based upon an examination of the documentary evidence of the tenderers qualifications submitted by the tenderer, pursuant to paragraph 2.1.2, as well as such other information as the Procuring entity deems necessary and appropriate.
- 2.24.3 An affirmative determination will be a prerequisite for award of the contract to the tenderer. A negative determination will result in rejection of the Tenderer's tender, in which event the Procuring entity will proceed to the next lowest evaluated tender to make a similar determination of that Tenderer's capabilities to perform satisfactorily.

(b) Award Criteria

- 2.24.4 Subject to paragraph 2.29 the Procuring entity will award the contract to the successful tenderer whose tender has been determined to be substantially responsive and has been determined to be the lowest evaluated tender, provided further that the tenderer is determined to be qualified to perform the contract satisfactorily.
- 2.24.4 The procuring entity reserves the right to accept or reject any tender and to annul the tendering process and reject all tenders at any time prior to contract award, without thereby incurring any liability to the affected tenderer or tenderers or any obligation to inform the affected tenderer or tenderers of the grounds for the procuring entity's action. If the procuring entity determines that none of the tenderers is responsive; the procuring entity shall notify each tenderer who submitted a tender.
- 2.24.6 A tenderer who gives false information in the tender document about its qualification or who refuses to enter into a contract after notification of contract award shall be considered for debarment from participating in future public procurement.

2.25 Notification of award

- 2.25.1 Prior to the expiration of the period of tender validity, the Procuring entity will notify the successful tenderer in writing that its tender has been accepted.
- 2.25.2 The notification of award will signify the formation of the Contract subject to the signing of the contract between the tenderer and the procuring entity pursuant to clause 2.29. Simultaneously the other tenderers shall be notified that their tenders have not been successful.
- 2.25.3 Upon the successful Tenderer's furnishing of the performance security pursuant to paragraph 31, the Procuring entity will promptly notify each unsuccessful Tenderer and will discharge its tender security, pursuant to paragraph 2.12.

2.26 Signing of Contract

- 2.26.1 At the same time as the Procuring entity notifies the successful tenderer that its tender has been accepted, the Procuring entity will simultaneously inform the other tenderers that their tenders have not been successful.
- 2.26.2 Within fourteen (14) days of receipt of the Contract Form, the successful tenderer shall sign and date the contract and return it to the Procuring entity.
- 2.26.3 The parties to the contract shall have it signed within 30 days from the date of notification of contract award unless there is an administrative review request.

2.27 Performance Security

- 2.27.1 Within thirty (30) days of the receipt of notification of award from the Procuring entity, the successful tenderer shall furnish the performance security in accordance with the Conditions of Contract, in the Performance Security Form provided in the tender documents, or in another form acceptable to the Procuring entity.
- 2.27.2 Failure of the successful tenderer to comply with the requirement of paragraph 2.29 or paragraph 2.30.1 shall constitute sufficient grounds for the annulment of the award and forfeiture of the tender security, in which event the Procuring entity may make the award to the next lowest evaluated or call for new tenders.

2.28 Corrupt or Fraudulent Practices

- 2.28.1 The Procuring entity requires that tenderers observe the highest standard of ethics during the procurement process and execution of contracts. A tenderer shall sign a declaration that he has not and will not be involved in corrupt or fraudulent practices.
- 2.28.2 The procuring entity will reject a proposal for award if it determines that the tenderer recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question;
- 2.28.3 Further, a tenderer who is found to have indulged in corrupt or fraudulent practices risks being debarred from participating in public procurement in Kenya.

2.27.2	Failure of the successful tenderer to comply with the requirement of paragraph 2.29 or paragraph 2.30.1 shall constitute sufficient grounds for the annulment of the award and forfeiture of the tender security, in which event the Procuring entity may make the award to the next lowest evaluated or call for new tenders.

APPENDIX B - EVALUATION CRITERIA

EVALUATION CRITERIA

A. PRELIMINARY EVALUATION/MANDATORY EVALUATION

NOTES ON EVALUATION CRITERIA

Evaluation and Comparison of Tenders: The following evaluation criteria shall be applied notwithstanding any other requirement in the tender documents.

SELECTION PROCESS

Below is a description of the evaluation steps that will be adopted.

STEP1: PRELIMINARY / MANDATORY EVALUATION

This will be an elimination stage where each Tenderer's submission will be checked for completeness and compliance to all the mandatory and other eligibility criteria stated in the tender requirements as in the

various paragraphs of the tender document, in accordance with Section 79 of Public Procurement and Asset Disposal Act, 2015.

STEP2: EVALUATION

i. TECHNICAL EVALUATION

This will be done by comparing details of the works to be offered against the minimum requirements/ technical specifications and confirming the same from the technical Literature/Specifications submitted. Bidders must score a minimum of 70% of the Technical Score to proceed to Financial Evaluation

ii. FINANCIAL EVALUATION

Financial Evaluation Criteria will be on **Least Cost Method.**

A: PRELIMINARY EVALUATION/ MANDATORY REQUIREMENT

A	PRELIMINARY EVALUATION/ MANDATORY REQUIREMENT	
1.	Certified Copy of Certificate of Incorporation/Registration	Mandatory
2.	Copy of Valid KRA Tax Compliance Certificate	Mandatory
3.	Attach System generated Copy of CR12 Certificate (For Incorporated firms only)	Mandatory
4.	Filled, Signed and Stamped Litigation History Form(Form 8)	Mandatory
5.	Filled, Signed and Stamped Integrity Declaration Form (Form 9)	Mandatory
6.	Attach fully filled and signed Viewing Certificate by designated officer at Kenya Railways. viewing will be carried out in the following areas (KR HR)(KR MGR) (KR RTI)	Mandatory
7.	Attach Certified current copy of Communications Authority (CA) of Kenya as an authorized service provider.	Mandatory
8.	A Bid Bond of Kshs. 200,000.00 valid for 120 days from date of tender opening in form of a Bank Guarantee from a Commercial Bank Registered in Kenya.	Mandatory

9.	Certified Audited Accounts for any of the last three (3) consecutive years.(2014, 2015, 2016, 2017)	Mandatory
10	Filled, Signed and Stamped (Confidential Business Questionnaire)(Form 3)	Mandatory
11	Bidder MUST submit 1 original copy & 2 copies of tender Document.	Mandatory
12	Paginate/serialize the tender document as required by Law (in the format 1, 2, 3, 4.....to the last page).	Mandatory
	<i>Pursuant to Section 80 of Public Procurement and Assets Disposal Act, 2015 any tender not meeting the mandatory and other eligibility criteria will not proceed to Technical Evaluation Stage.</i>	

B. TECHNICAL EVALUATION

B	TECHNICAL EVALUATION (100 MARKS) (Pass Mark=70% Marks i.e. A bidder MUST score 70% marks and above in Technical Evaluation in order to be allowed to proceed to Financial Evaluation)

1	Financial evaluation will be on at Least Cost Method	

I. Methodology and Work Plan (50 Marks)

Bidders are expected to submit detailed methodology and work plans to deliver the proposed solutions as per the TOR's principal features for:

- i. WAN Connectivity (Fibre and Wimax Connectivity) – the bidder MUST provide technical specifications complete with diagrammatic illustrations of the Network Topology to be implemented to connect the six locations. The proposal should include timelines for implementation of the solution.
- ii. Internet Connectivity – Bidder is expected to provide a technical proposal for the Internet Connectivity. The bidder should show with diagrams how they intend to connect KR to the internet and include in their proposal clear timelines for internet setup, testing, commissioning and training.

- iii. Internet and WAN Network Redundancy Features – Bidder is expected to describe the technology to use for redundancy of the WAN Network and Internet Service.
- iv. Collocation – Bidder should provide a detailed description of the proposed collocation solution.
- v. Support Service & Service Level Agreement – Bidder should provide detailed proposal of expected Support Service Levels with clear response times for on-call support service and Mean Time To Recover (MTTR) in case of service outage.

II. Proof of adequate experience of the Firm (Fill Form X)

Complete a separate form for each of the works as indicated on B (I) above.

SECTION III GENERAL CONDITIONS OF CONTRACT

3.1 Definitions

3.1.1 In this contract the following terms shall be interpreted as indicated:

- a) “The contract” means the agreement entered into between the Procuring entity and the tenderer as recorded in the Contract Form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
- b) “The Contract Price” means the price payable to the tenderer under the Contract for the full and proper performance of its contractual obligations.
- c) “The services” means services to be provided by the contractor including materials and incidentals which the tenderer is required to provide to the Procuring entity under the Contract.
- d) “The Procuring entity” means the organization sourcing for the services under this Contract.
- e) “The contractor” means the individual or firm providing the services under this Contract.
- f) “GCC” means general conditions of contract contained in this section
- g) “SCC” means the special conditions of contract
- h) “Day” means calendar day

3.2 Application

3.2.1 These General Conditions shall apply to the extent that they are not superseded by provisions of other part of contract.

3.3 Standards

3.3.1 The services provided under this Contract shall conform to the 7 standards mentioned in the Schedule of requirements.

3.4. Use of Contract Documents and Information

- 3.4.1 The Contractor shall not, without the Procuring entity's prior written consent, disclose the Contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the Procuring entity in connection therewith, to any person other than a person employed by the Contractor in the performance of the Contract.
- 3.4.2 The Contractor shall not, without the Procuring entity's prior written consent, make use of any document or information enumerated in paragraph 2.4.1 above.
- 3.4.3 Any document, other than the Contract itself, enumerated in paragraph 2.4.1 shall remain the property of the Procuring entity and shall be returned (all copies) to the Procuring entity on completion of the contract's or performance under the Contract if so required by the Procuring entity.

3.5 Patent Right's

- 3.51 The tenderer shall indemnify the Procuring entity against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the services under the contract or any part thereof.

3.6 Performance Security

- 3.6.1 Within twenty eight (28) days of receipt of the notification of Contract award, the successful tenderer shall furnish to the Procuring entity the performance security where applicable in the amount specified in Special Conditions of Contract.
- 3.6.2 The proceeds of the performance security shall be payable to the Procuring entity as compensation for any loss resulting from the Tenderer's failure to complete its obligations under the Contract.
- 3.6.3 The performance security shall be denominated in the currency of the Contract or in a freely convertible currency acceptable to the Procuring entity and shall be in the form of:
- a) Cash.
 - b) A Bank Guarantee.
 - c) Such Insurance Company Guarantee as may be approved by the Authority

- d) A letter of credit; or
- e) Guarantee by a deposit taking Microfinance Institution, Sacco Society, the Youth Enterprises Development Fund or the Women Enterprises Fund.

3.6.4 The performance security will be discharged by the procuring entity and returned to the candidate not later than thirty (30) days following the date of completion of the tenderer's performance of obligations under the contract, including any warranty obligations under the contract.

3.7 Inspections and Tests

3.7.1 The Procuring entity or its representative shall have the right to inspect and/or to test the services to confirm their conformity to the Contract specifications. The Procuring entity shall notify the tenderer in writing, in a timely manner, of the identity of any representatives retained for these purposes.

3.7.2 The inspections and tests may be conducted on the premises of the tenderer or its subcontractor(s). If conducted on the premises of the tenderer or its subcontractor(s), all reasonable facilities and assistance, including access to drawings and production data, shall be furnished to the inspectors at no charge to the Procuring entity.

3.7.3 Should any inspected or tested services fail to conform to the Specifications, the Procuring entity may reject the services, and the tenderer shall either replace the rejected services or make alterations necessary to meet specification requirements free of cost to the Procuring entity.

3.7.4 Nothing in paragraph 3.7 shall in any way release the tenderer from any warranty or other obligations under this Contract.

3.8 Payment

3.8.1 The method and conditions of payment to be made to the tenderer under this Contract shall be specified in SCC.

3.9 Prices

3.9.1 Prices charged by the contractor for services performed under the Contract shall not, with the exception of any Price adjustments

authorized in SCC, vary from the prices by the tenderer in its tender or in the procuring entity's request for tender validity extension as the case may be. No variation in or modification to the terms of the contract shall be made except by written amendment signed by the parties.

3.10 Assignment

3.10.1 The tenderer shall not assign, in whole or in part, its obligations to perform under this contract, except with the procuring entity's prior written consent.

3.11 Termination for Default

3.11.1 The Procuring entity may, without prejudice to any other remedy for breach of Contract, by written notice of default sent to the tenderer, terminate this Contract in whole or in part:

- a) if the tenderer fails to provide any or all of the services within the period(s) specified in the Contract, or within any extension thereof granted by the Procuring entity.
- b) if the tenderer fails to perform any other obligation(s) under the Contract.
- c) if the tenderer, in the judgment of the Procuring entity has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.

3.11.2 In the event the Procuring entity terminates the Contract in whole or in part, it may procure, upon such terms and in such manner as it deems appropriate, services similar to those undelivered, and the tenderer shall be liable to the Procuring entity for any excess costs for such similar services.

3.12 Termination of insolvency

3.12.1 The procuring entity may at the anytime terminate the contract by giving written notice to the contractor if the contractor becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the contractor, provided that such termination will not produce or affect any right of action or remedy, which has accrued or will accrue thereafter to the procuring entity.

3.13 Termination for convenience

3.13.1 The procuring entity by written notice sent to the contractor may terminate the contract in whole or in part, at any time for its convenience. The notice of termination shall specify that the termination is for the procuring entity convenience, the extent to which performance of the contractor of the contract is terminated and the date on which such termination becomes effective.

3.13.2 For the remaining part of the contract after termination the procuring entity may elect to cancel the services and pay to the contractor on agreed amount for partially completed services.

3.14 Resolution of disputes

3.13.1 The procuring entity's and the contractor shall make every effort to resolve amicably by direct informal negotiations any disagreement or dispute arising between them under or in connection with the contract.

3.13.2 If after thirty (30) days from the commencement of such informal negotiations both parties have been unable to resolve amicably a contract dispute either party may require that the dispute be referred for resolution to the formal mechanisms specified in the SCC.

3.15 Governing Language

3.15.1 The contract shall be written in the English language. All correspondence and other documents pertaining to the contract, which are exchanged by the parties, shall be written in the same language.

3.16 Force Majeure

3.16.1 The contractor shall not be liable *for* forfeiture of its performance security, or termination for default if and to the extent that its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

3.17 Applicable Law.

3.17.1 The contract shall be interpreted in accordance with the laws of Kenya unless otherwise specified in the SCC

3.18 Notices

- 3.18.1 Any notices given by one party to the other pursuant to this contract shall be sent to the other party by post or by fax or E-mail and confirmed in writing to the other party's address specified in the SCC.
- 3.18.2 A notice shall be effective when delivered or on the notices effective date, whichever is later.

SECTION IV SPECIAL CONDITIONS OF CONTRACT

- 4.1 Special conditions of contract shall supplement the general conditions of contract, wherever there is a conflict between the GCC and the SCC, the provisions of the SCC herein shall prevail over those in the GCC.
- 4.2 Special conditions of contract with reference to the general conditions of contract.

SCC Clause 4.4.4	Part payment will be done after every service subject to inspection and Verification of the work done.

SECTION V – SCHEDULE OF REQUIREMENTS /TERMS OF REFERENCE

TERMS OF REFERENCE FOR PROVISION WAN CONNECTIVITY, INTERNET AND COLLOCATION SERVICES

Kenya Railways wishes to procure and implement a secure and robust Wide Area Network (WAN) and Internet link to connect users within its local area Network (LAN) and WAN locations across the country. The Solution should also include a Collocation service to the provider Disaster Recovery Site (Data Centre).

KR requires an expandable solution capable of meeting the changing technology, and yet able to meet its communication needs.

The contract will be for a period of 3 years renewable with tariffs reviewed downward annually depending on market rate or as defined by Communication Authority (CA).

Colocation will be an addendum to the main contract.

Solution Design

The provider should indicate how they intend to provide the solution based on the following solution design requirements:-

Internet Services Requirements

The Provider Fibre Network Features

The provider fibre network should have the following features:-

- The Backbone should be based on SDH with a minimum capacity of STM 64 (10Gbps)
- The provider Network should be based on Ring Topology to ensure redundancy
- The provider network technologies should ensure reliability, scalability, flexibility and unlimited capacity.
- The provider network should be a multi Service Provisioning Platform offering both legacy TDM and Next Generation (IP) services
- The provider Legacy or TDM Services should include E1's, E3, STM1, STM4, STM16

- The Provider Next Generation should include Layer 2 Ethernet, VLANs, MPLS, GbE, Storage Area Network (SAN).
- The Provider network should support High Definition video, Voice and Data

Provider Core Network Redundancy Features

The Provider Core Network should have the following Feature for Redundancy:-

- The provider Core Network should guarantee 99.9 % service availability and reliability through well designed and protected circuits. The provider should also have well established fault handling procedures allowing for very minimal downtimes to KR if any.
- The provider core and access networks should be backhauled on 5 different networks that are all interconnected to ensure that KR is guaranteed of service.
- The provider network circuits should be protected through the implementation of a SDH/SONET ring topology with the use of BG-20 equipment to provide a scalable architecture that allows for network expansion, and can be used to provide new services; voice, video conferencing, internet/P2P and IPTV (Quad Play) with seamless bandwidth scalability from STM1 to STM4. In addition, the SDH topology should ensure that in the event of any physical damage the circuits can restore to another route without any downtime (i.e should provide self healing).
- From the international side the provider network should have connectivity to the three different international internet gateways thereby offering KR tri redundancy to the internet with auto fail over mechanisms amongst the three gateways i.e. SEACOM, TEAMS and Satellite.

The Provider WiMAX Network Features

The provider should have WiMAX base stations in the country covering the entire major towns in Kenya and all the sites listed below (**Summary of Internet and WAN Connectivity Service Requirements**).

- The provider should be operating a modern Cisco-Powered, all IP-based WiMAX Network. This Network should be built on Ring Topologies, to

ensure a highly-survivable IP Network with guaranteed resilience, high availability, low latency, and high throughput.

- The provider should have implemented IP Trunking systems with failover onto redundant facilities to guarantee zero-time service disruptions.

The Provider MPLS Network Features

- This should be formed by connecting each KR sites (Summary of Internet and WAN Connectivity Service Requirements) with a single link (as shown in the diagram below) to the service provider MPLS network. An MPLS network stands for Multi-Protocol Label Switching and any packet coming to the Label edge routers (from individual locations – source, to the service provider MPLS network) are encapsulated with an MPLS label which is used to identify it and route it through the MPLS network. This label is discarded when the packet comes out of the MPLS network back to individual locations – destination.
- The MPLS technology should provide for scalable virtual private networks (VPN's) and end-to-end quality of service (QoS), enabling efficient utilization of existing networks to meet future growth and rapid fault correction of link and node failure. The technology should also help to deliver highly scalable, differentiated end-to-end IP services with simpler configuration, management, and provisioning.
- The MPLS service is layer 3 and by employing IP sub-nets of /30, KR should achieve point to point connectivity. The provider network flexibility should allow KR to originate IPs for the interfaces facing the provider network designed with the capability to offer Layer 2 connectivity.

The MPLS Required Solution

- The provider proposed solution should be an MPLS wide area network where each KR remote office will connect to the head office over the provider national backbone. The service will be on layer three MPLS to ensure high security and optimal applications performance.
- The provider should have invested in countrywide fibre backbone to enable broadband access in the KR regional offices' towns.

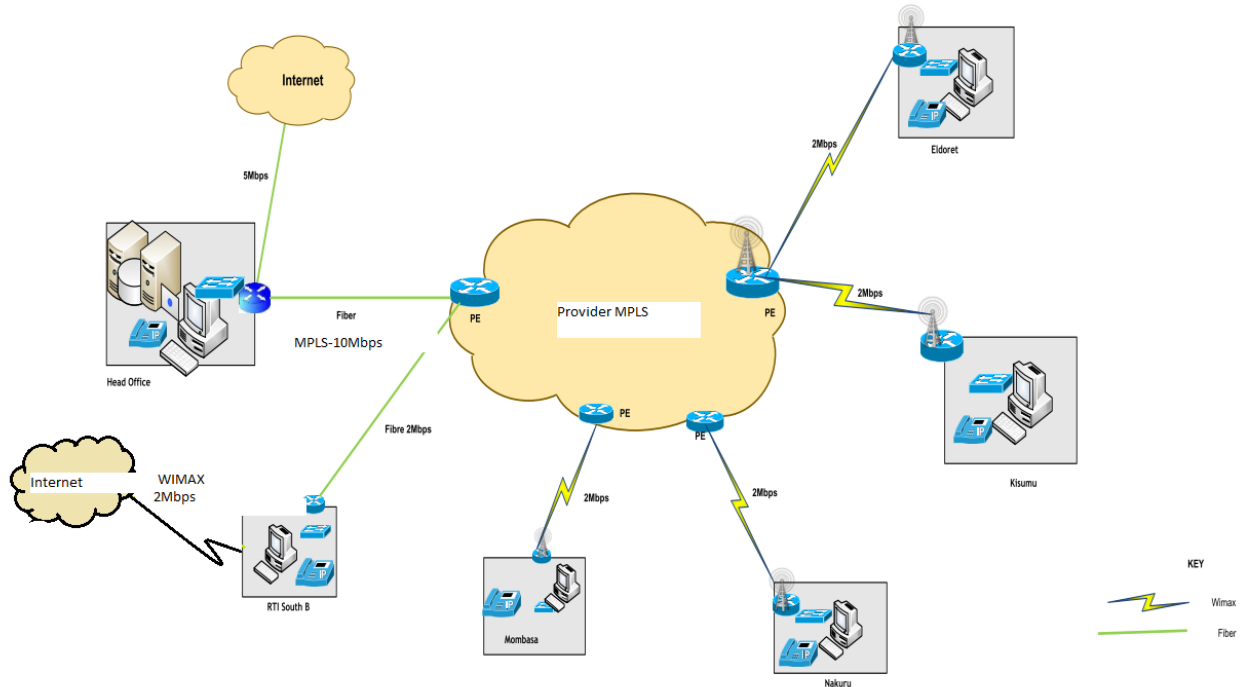

- The provider national backbone should be built on a ring topology to enable high availability for KR Wide Area Network.

MPLS WAN Network Design Topology

The Topology of the proposed Provider MPLS WAN Network should be designed as described below:-

- All the branch offices should be connected to the nearest Provider Equipment (PE).
- All sites should be as per the Service/Link Type Primary Access Media as defined per site below.
- The Railway Training Institute and the KR HQ should connect via Fibre.
- KR should be assigned a unique VRF for her traffic which will utilize the routing capacity of High End provider routers.
- The backhaul link to the HQ will be the cumulative bandwidth at the branches.
- The MPLS platform should offer fast data switching using labels utilizing the provider's high MPLS Infrastructure.
- Being a L3VPN, the MPLS platform offers visibility and Monitoring capability for both KR and the Service Provider.
- All the sites shall connect to the internet through KR HQ.
- The Bidder shall install and extra Hwic 1FE Card in the Cisco 1941 Router at KR HQ to enable the provision of an extra port for the extra connections e.g. Internet

Colocation Service Requirements

Item	Description
Service Description	The internet provider will also provide Colocation Services . In this solution, KR servers will be physically housed within the Provider Data Centre. The facility should provide a high-security environment, including fire detection, UPS power backup, access control, surveillance and backup power generators to ensure high availability.
Minimum	<ul style="list-style-type: none"> Power systems at the provider data centre site should be

<p>Required Data Centre Features</p>	<p>designed to run uninterrupted - even in the unlikely event of a total power outage redundant generators should be installed on site for backup power.</p> <ul style="list-style-type: none"> • Redundant AC UPS power should provide N+1 redundancy. • Data center AC systems should be N+1 redundant to ensure that in the unlikely event of an entire AC system failure; there is a duplicate system ready to assume the load. • Data centers have a fire detection and suppression system with an early smoke warning system. • Security- Data Centre should have access control, alarm system, razor fence perimeter wall with back up security guards • The Data center should have an Alarm remote monitoring to the central network operation centers • Preventative maintenance at the data center should be performed regularly by the provider personnel who should be highly trained. The maintenance should include the network and critical physical infrastructure for the data center. • The Data Centre should have Network Connectivity to KR Headquarter • If Collocation facility is within Nairobi there must be a redundancy facility located over 10km from the primary location. • The primary facility location should be over 10km from KR HQ and the vendor MUST own the facility and guarantee 100% interconnectivity between the primary and the redundant facilities.
